***Hoover Dam Parking Garage  
Parking Fee Policy***

# HOOVER DAM PARKING GARAGE

## PARKING FEE POLICY

- **Policy for the Auto Levels**

Private passenger vehicles and commercial vehicles with less than 18 passenger capacity will be charged a \$2.00 fee per vehicle to use the Hoover Dam Parking Garage. The Government will notify the Contractor of authorized permits, passes, coupons or other types of waivers that authorize vehicles to use the auto levels of the Parking Garage for a reduced fee or for free.

- **Policy for the Bus Level**

**Current Practice:** Currently there is no parking fee for buses or other commercial vehicles parking on the bus level of the Parking Garage. This policy will remain in effect until officially modified. It is anticipated that the modification of this policy will occur within the next six months, and after October 1, 1998.

**Future Practice:** Within the next six months the fee collection policy may be modified as follows:

1. Buses with Reclamation-provided Identification: Buses and other commercial vehicles displaying a sticker in their front window, or displaying other Reclamation-provided identification, indicating that they have pre-paid their parking fee, will have use of the bus level without charge.
2. Buses without Reclamation-provided Identification: Buses and other commercial vehicles who do not display a sticker or other Reclamation-provided identification device will be charged \$100.00 per vehicle per trip. The fee may be paid by cash, check or credit card.
3. Non-commercial Vehicles: Parking on the bus level will be restricted to buses and other commercial vehicles (18 passengers or more). Other vans and smaller vehicles should be directed to park on auto levels 2 - 5. Recreational vehicles should be directed to parking lots on the Arizona side of the Dam.

**The Contractor will receive official notice no later than 30 days prior to the effective date of any changes to this parking fee policy.**
